The Jabberwocky, with eyes of flame,  
Came whiffing through the tulgey wood,  
And burbled as it came.

The  
Jabberwocky's

Watch out! The Jabberwocky's are comin to town, and they didn't bring Lewis Carol, the author of the 1872 poem "Jabberwocky". These Jabberwocky's aren't going to drag you off into the woods and eat you for dinner, they're just gonna rock the place to the ground! They're a fresh new cover band formed out of Easton PA, with a bunch of guys who've been in numerous bands (Kef, Scotland Yard and Freak Magnet just to name a few) it's pretty evident by their sound and set lists that they just want to rock and have a great time doin it. From The Killers to Rage Against the Machine and all the way back to the Foo Fighters, these tunes make you wanna get up and move. These guys definitely have the skills to pay the bills. Scott and Anthony shred the high energy guitar solos, while Funk Master Kar plucks out the grooves on the bass guitar. Front man Jeff Kicska belts out the spirited vocals as the rest of the guys divvy out the backgrounds, and all this is backed up and sewn together with Greg Hughes poundin' out the splendiferous rhythms and groovalicious beats on the drums. If you're lookin for a good time band , and aren't afraid to get up and jump around, then Go check out The Jabberwocky's .... They're comin' to gitcha!
